HELLO THERE. I'm a freelance graphic designer with extensive experience in multimedia illustration as well as branding, layout, and production design. I'm proud to offer an obsessive eye for detail, a love for aesthetics and style, and a passion for being a part of a creative team. Thanks for your consideration.

THE ALZHEIMER'S ASSOCIATION

MARKETING VOLUNTEER, DECEMBER 2019 - PRESENT

I assist with the ongoing campaign to raise awareness of the Alzheimer's Association's mission in Oregon. As part of this mission, I work within the appropriate brand and editorial guidelines to produce high-quality print and digital collateral, as well as social media content.

LEGACY HEALTH

DIET AIDE, JUNE 2010 - PRESENT

I work with hospital patients to ensure that their daily dietary needs have been met. This involves working closely with the patients, family members, and fellow staff members, while utilizing both attention to detail and empathy. Additionally, I train new employees, liaise between the dietary department and the nursing units, and assist management in correcting problems as they arise. In my time here, I've received eleven awards and commendations for excellence in patient care.

KOZHA NUMBERS

DESIGN INTERN, JUNE 2018 - SEPTEMBER 2018

Collaborated with the design team to brand a new skin care product being introduced as part of the KOZHA NUMBERS brand. Provided consulting and technical assistance as necessary.

BEACON QUARTERLY

Assigned the role of lead production designer for Beacon Quarterly, a local art and lifestyle magazine. In close collaboration with the Editor-in-chief, I designed and laid out the entire magazine from start to finish, including formatting articles and text, editing photos, and creating custom illustrations, all within weekly deadlines.
